

How Home Care Assistance *Can Help You*

Attorney

Transparency in Estate Planning and Personal Care: Our Client Care Manager will administer a client assessment and provide a customized care plan that aligns directly with your client's needs. A detailed cost analysis for accurate long-term planning would be of the utmost importance while maintaining a holistic approach to promote quality care. As mandated reporters, our registered caregivers and Client Care Managers will always place your client's safety and needs as top priority.

Reliable Collaboration with All Legally Appointed Designees: Our team is proud of our streamlined and dedicated communication process with noted responsible parties. We will work directly with you to ensure our team is connecting with all appointed Trustees, Power of Attorneys, and appointed decision-makers; preserving your client's wishes while establishing trust with all involved. This will reduce time spent on nonlegal matters.

Professional Community Resource: AAs experts in the field of aging, we are a reliable resource when planning all aspects of long-term care. Partnering together in the community will benefit our local senior industry, and provide a trusted circle centered on compassion, ethics, and integrity.

Let us help support you and provide for your clients who need in-home care. **Call us today!**
